Product Overview

- 1. USB-C input connector
- 2. LED
- 3. PD 100W
- 4. HDTV 4K@30Hz
- 5. USB 3.0
- 6. USB-C 3.0
- 7. LAN (1000Mbps)
- 8. SD
- 9. TF

Specifications

Power Delivery	100W
Interface Connector	USB-C
HDMI	4K @ 30Hz, 2K @ 60HZ
USB 3.0 Transfer Rate	5Gbps

Ethernet	1000Mbps
Cable Length	140mm
Material	Aluminum
Net Weight	84g
Product Size	20 x 45 x 81.5mm
Model Number	PDRDS71

Instructions for Use

- 1. USB-C Connection:** Plug the male end of the USB-C hub into the USB-C port of the notebook. Ensure that the computer confirms the interface supports PD (Power Delivery) + video + data transfer + card reader functions.
- 2. HD Output Function:** Connect the hub to an HDTV to display the video from the USB-C laptop on a TV or other HD-enabled devices.
- 3. LAN Input Function:** Connect the network equipment to the LAN port, allowing the computer to access the internet.

General Information

- 1.** The package contains only the hub. Power adapters, cords, or other accessories are not included.
- 2.** The USB 3.0 USB-A port on the hub supports a maximum of 5V 900mAh total charge output. It is backward compatible with USB 2.0/1.1.

3. The USB-C port supports a maximum of 5V 900mAh total charge output, a maximum speed of 5Gbps, and is backward compatible with USB 1.1/1.0.
4. The hub supports 4K @ 30Hz and 2K @ 60Hz display via HDMI, and it can be used to achieve resolutions of 2160x3840p at 30Hz and 1080x2048p at 60Hz.
5. The SD/Micro SD card maximum speed reaches 5Gbps.
6. The LAN (RJ45) port supports a maximum speed of 1000Mbps.
7. Operating humidity: 10% to 85% RH (non-condensing).
8. Storage temperature: -10°C to 70°C.
9. Storage humidity: 5% to 90% RH (non-condensing).

Warnings

1. To ensure a stable connection, avoid using this hub with high-power devices. The hub supports only one hard drive at a time.
2. The PD (Power Delivery) function can power and charge the connected USB laptop. The device's USB-C port must support USB-C Power Delivery.
3. The hub's USB-C charging port outputs up to 100W, but does not support data transfer.
4. If the laptop's USB-C port only supports data signals (DisplayPort Alt Mode), it will not support USB-C Power Delivery.
5. The hub supports data transfer, but will not power your laptop.
6. Keep away from children.
7. Do not drop or subject to impact. Dropping or hitting the hub may cause damage to internal components and affect its functionality.
8. Do not use in extreme conditions. Avoid using the product in environments with extreme temperatures, high humidity, or dust, as this may damage the device.
9. Do not immerse in water or expose to water. The hub is not waterproof. Keep it away from water or any other liquid to prevent damage.
10. Do not disassemble. Disassembling the device yourself can lead to

malfunction or damage. For repairs, send the product to a professional technician or service agent.

Tips

Help reduce the interference of USB 3.0 radios on some laptop wireless connections in one of the following ways:

Option 1: Connect your computer to a 5GHz Wi-Fi network.

Option 2: Use a high-quality shielded USB 3.0 device/cable/connector.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
