Product Overview

The Porodo Dual Port Universal Fast Charger is designed for effortless travel and reliable everyday use, supporting compatibility in more than 150 countries with its EU, US, UK, and AU plug system. Built with convenience in mind, it features dual USB-A ports for fast and efficient charging of multiple devices at once. Its compact, travel-friendly design makes it easy to carry, while the built-in safety safeguards ensure dependable protection against overvoltage, overheating, and short circuits. Whether you’re traveling abroad or powering your devices at home, this universal fast charger delivers seamless performance and trusted Porodo quality wherever you go.

Specifications

Input	100V-250V, 50/60Hz
AC Output	2500W, 10A Max
USB-A Outputs	5V/2.4A 12W
Operating Temperature	0-35°C
Dimensions	50 x 53 x 66mm

Weight	130g
Model Number	PD12WUTA

Product Features

1. This charger is equipped with interchangeable plug adapters, making it the perfect solution for frequent travelers, offering seamless compatibility with power outlets across North America, Europe, the UK, Australia, and many other countries.
2. With two USB-A ports, this charger allows you to power up two devices at once, ensuring efficient, fast charging for smartphones, tablets, and other USB-powered devices, all while saving time and maintaining optimal performance.
3. Its compact size and lightweight build make this charger highly portable, fitting easily into your bag or suitcase without taking up much space, making it an ideal companion for both short trips and long international travels.
4. Equipped with advanced protection features, this charger ensures the safety of both your devices and the charger itself, preventing potential damage from overcharging, excessive heat, and short-circuiting, giving you peace of mind during use.
5. The Porodo charger can handle a wide range of voltages (100V-240V), making it suitable for use in various countries with different electrical standards, so you don't need to worry about voltage issues while traveling internationally.
6. The modern and stylish black design complements any travel or work setup, while the user-friendly structure ensures easy plugging and unplugging, offering both practicality and elegance.

Adjustable Plug Instructions

The Porodo Dual Port Universal Fast Charger features an adjustable plug design that allows you to easily switch between multiple plug types, ensuring compatibility with electrical outlets in various countries around the world.

To switch between different plug types, simply slide the plug adjustment mechanism, selecting the correct type for the country you're in. Once you've chosen the correct plug, it locks into place securely to ensure a safe, reliable connection for your device. This easy-to-use system makes the Porodo Dual Port Universal Fast Charger perfect for international travelers.

1. Type I (Australia/China)

Usage: Primarily used in Australia, China, and some countries in Oceania and East Asia.

Description: This plug features an angled 2-pin design, which is perfect for the electrical standards in these regions. It's ideal for devices used in countries like Australia, New Zealand, and China.

2. Type G (UK/GCC)

Usage: Commonly used in UK, GCC countries, UAE, and Gulf countries.

Description: This 3-pin rectangular plug design is a standard for many countries in Europe and the Gulf region. It provides a secure connection, ideal for high-power devices in these regions.

3. Type C (Europe/Asia)

Usage: Widely used in Europe, Asia, and other regions with 2-pin round plugs.

Description: This is a common plug type used throughout Europe and parts of Asia. Its simple, round-pin design ensures compatibility with most outlets in these areas, making it the go-to plug for travel across many countries.

4. Type A (USA/Japan)

Usage: Standard plug type for the USA and Japan, as well as some other regions.

Description: The Type A plug features a 2-pin flat design and is commonly used in North America and Japan. It's the most recognizable plug for these countries and is widely compatible with devices sold there.

Safety Precautions

- 1.** Do not exceed the maximum output capacity of the charger. Plugging in too many devices at once may cause overheating or malfunction.
- 2.** Always ensure that the plug is securely inserted into the power outlet and the correct plug type is selected for your region.
- 3.** Keep the charger dry and avoid using it in wet conditions. Exposure to moisture can cause electrical damage or short circuits.
- 4.** Before use, inspect the charger and its plugs for any visible damage. Do not use the charger if it shows signs of wear or damage, such as frayed wires or broken connectors.
- 5.** Place the charger in a well-ventilated area, away from direct heat sources like radiators, stoves, or direct sunlight. Overheating may damage the charger and connected devices.
- 6.** Never use the charger to power damaged or faulty devices. Always ensure your devices are in good working condition to avoid electrical hazards.
- 7.** For safety and energy efficiency, unplug the charger from the power outlet when it is not being used. This helps prevent unnecessary wear and reduces the risk of overheating.
- 8.** Ensure the charger is used only with the appropriate voltage and outlet types. Using it with incompatible outlets or voltages can damage both the charger and your devices.
- 9.** The charger is not designed for user repair. If the charger malfunctions, contact customer service for assistance rather than attempting to open or repair it yourself.
- 10.** Always supervise children when using the charger to prevent accidental electrical shocks or misuse.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
