Product Overview

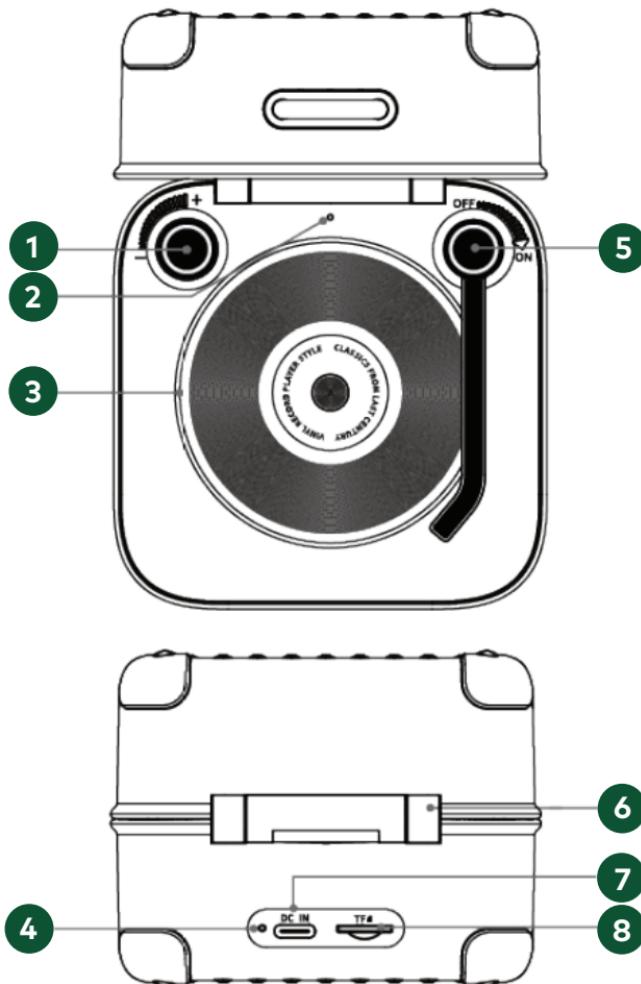

The Green Lion Gramo Vinyl Wireless Speaker is a stylish and versatile audio device that combines retro aesthetics with modern technology. It features TF card playback and dual-speaker wireless sync, offering a high-quality sound experience with its 52mm powerful driver. The speaker is equipped with hands-free call functionality and boasts a suitcase-style foldable design for easy portability. Additionally, the Gramo speaker includes 7-color ambient lighting and classic knob volume control, enhancing both the visual and auditory experience. With an impressive 8 hours of playtime, this speaker delivers both performance and style, making it an ideal choice for music lovers on the go.

Specifications

Model No.	GL-SP34
Material	ABS + PC
Battery	1200mAh
Input	5V/1A
Output Power	4W
Bluetooth	V5.3
Transmission Distance	10 m
Driver Size	52 mm
Charging Port	USB-C
Charging Time	2-3 Hrs
Playtime	7-8 Hrs (50% Volume)

Input Ports	USB, TF Card Slot
Product Weight	328 g
Product Dimensions	70.7*90.7*102.4 mm

Product Diagram

ITEM	ACTION	
1	Adjust the volume by turning the knob left or right.	
	Play/Pause/Answering calls/ End calls by short-pressing once	
	TWS connect / disconnect by briefly pressing twice	
	Mode Switch by pressing shorty three times	
	LED ON/OFF/Reject call by pressing and holding the knob.	
2	MIC plug	
3	Vinyl	Turn while playing music
4	LED Status	When charging, the Red LED will stay on. When fully charged, the Red LED will turn off.
5	Power ON/OFF	Turn the arm clockwise to power ON
		Turn back the Arm to power OFF
6	Damping Bearing	Open the cover at 90° when playing music
7	DC IN (Type-C)	Charge / Connect computer to play music
8	TF Card slot	It will play the music in the memory card when you insert the TF card.

Bluetooth Pairing

1. Turn the arm clockwise to power on the unit. The LED lights under the turntable will blink slowly, indicating that the speaker is in pairing mode.
2. Activate Bluetooth on your phone. Look for the device named "GL-SP34" to pair.
3. Select "GL-SP34" from the list and follow the on-screen instructions to complete the pairing. Once paired, you will hear a sound prompt, and the LED lights under the turntable will change to breathing mode.

4. If pairing is unsuccessful, please repeat the previous steps.
5. To disconnect Bluetooth, simply turn off Bluetooth on your device.

TF Mode

1. This product supports external TF cards. Insert the TF card and power on the unit by turning the arm clockwise.
2. The unit will automatically enter TF card mode, and music from the card will start playing.
3. During playback, press the button as previously instructed to play, pause, etc.

Note: When using other play modes, press the button three times to switch to TF card mode.

Connecting to the computer

This product supports computer speaker functionality. Connect the small plug from the supplied USB connection cable (with data transmission function) to the Type-C port on the back of the unit, and the full-size USB plug to the computer. After a successful connection, the unit can be used as a computer speaker.

If your computer has Bluetooth, you can follow the Bluetooth instructions to connect the product wirelessly.

Troubleshooting

Symptom	Possible Cause	Possible Solution
The device doesn't power on	The Built-in battery is drained.	Please charge for 30-60 minutes.

No sound or the sound is weak	The volume of the paired device is too low.	Raise the volume level of the paired device.
Sound distortion Bluetooth	The volume of the pair device is too high.	Lower the volume level of the paired device.
connection does not work	The external connected device is too far away from the speaker.	Place the external BT device close to the product.

Gramo Vinyl bluetooth Speaker x1

USB-C Charging Cable x1

Safety Instructions

1. Generally, the new unit battery is charged and inspected for qualification before shipping. After receiving the product, use it first. When the battery is at 10% - 20% power, it needs to be charged. Charging time should be at least 5 hours, and at most no more than 10 hours.
2. Hand over scrapped products, including the battery, to a regular waste recycling center or professional distributor.
3. Please only use the charger (5V/1A) recommended by the manufacturer.
4. When charging indoors during the day with high temperatures, the battery should only be charged within an ambient temperature of 40°C.
5. Turn off the device in time after use to avoid power loss that can affect the battery's service life.
6. If the unit is not used for a long time, store it after fully charging and powering it off. Charge it every two months.

7. Do not heat the rechargeable battery above 70 °C. Avoid sunlight and never throw the rechargeable battery into a fire.
8. In low temperatures, the battery's performance will decline somewhat. In winter, you may notice a decrease in endurance.
9. Do not use a battery charger to charge the unit improperly, as this can cause excessive charging and deformation, ultimately damaging the battery.
10. There may be slight deviations in battery life at different usage times, as both the size of the speaker and the volume of playback will affect power consumption.
11. If the speaker's volume fluctuates and the battery has almost no power, please charge it promptly. Failing to do so may cause the battery power to drain, shortening the battery's lifespan. In the worst case, it could render the battery unable to charge.

Warning: In extreme cases, improper use or abuse may cause the standard/rechargeable battery to leak, leading to potential hazards such as overheating, fire, explosion, or the production of harmful gases.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at [**https://www.greenlion.net/warranty**](https://www.greenlion.net/warranty) and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
