## Product Overview

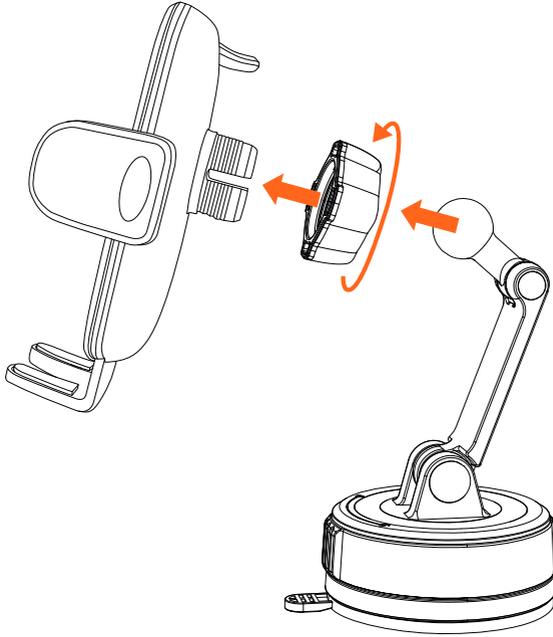

The Porodo Robson Cradle Suction Phone Holder offers a versatile and secure solution for mounting your device while on the go. With a full 360-degree rotation and a wide viewing angle of up to 250 degrees, this holder ensures a perfect, customizable position for your phone, whether you're driving or working. It supports devices ranging from 4.7 to 6.8 inches, making it compatible with a variety of smartphones. The holder features a strong suction base, which ensures stability on multiple surfaces, and its one-click lock and release function provides quick and easy mounting and removal of your device. This phone holder is designed for practicality and ease of use, ensuring that you can keep your phone securely in place while maintaining full visibility and accessibility.

## Specifications

Material	ABS + PC + Silicone
Compatibility	4.7"-6.8" Devices
Load Capacity	400g Max
Clamp Width	52-90mm
Suction Cup Diameter	67mm
Product Weight	0.16kg
Product Size	71.21 x 103.97 x 147.42mm
Model Number	PDH6SS02

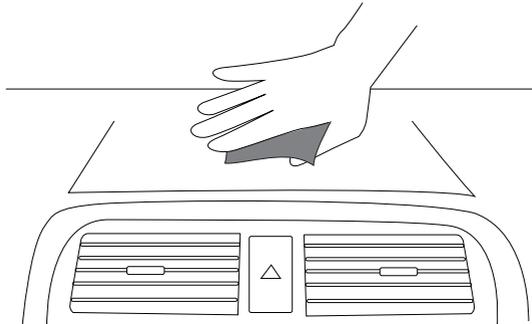

# Installation Guide

## Step 1

## Step 2

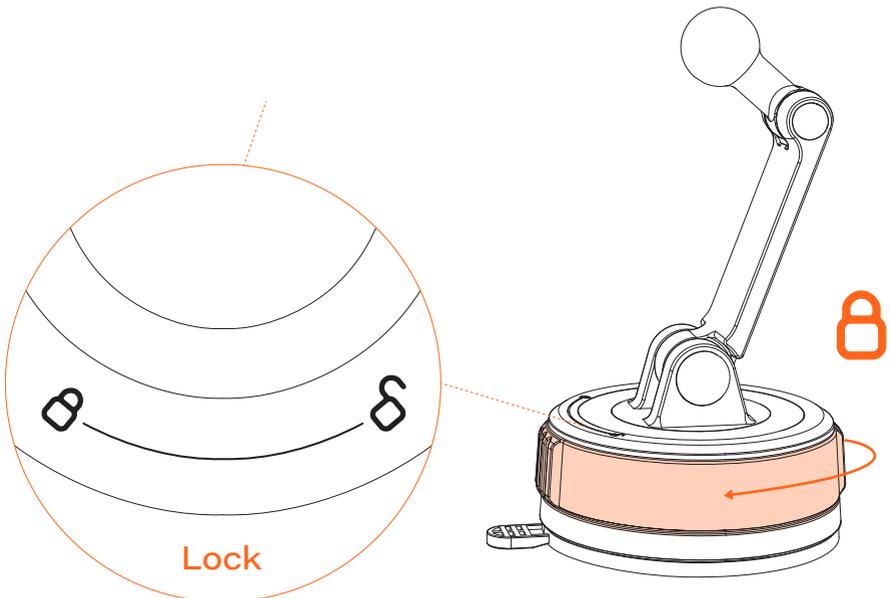

Clean

**Step 3**

**A**

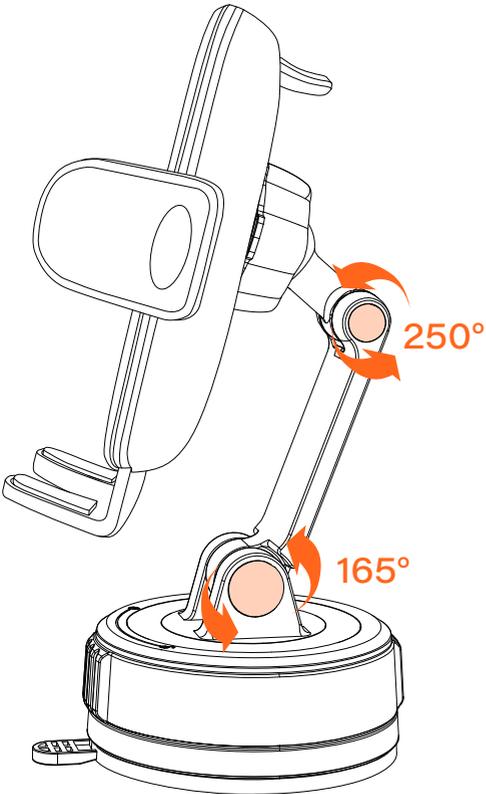

**B**

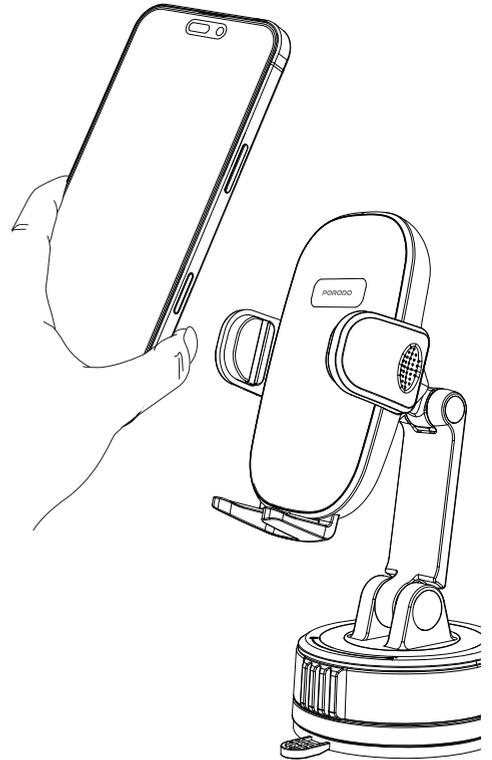

**NOTES:**

1. If your dashboard surface is textured or not completely smooth, use the 3M pad for a stronger hold.
2. The suction cup is reusable. Clean it with warm water to restore its stickiness.

**Step 4**

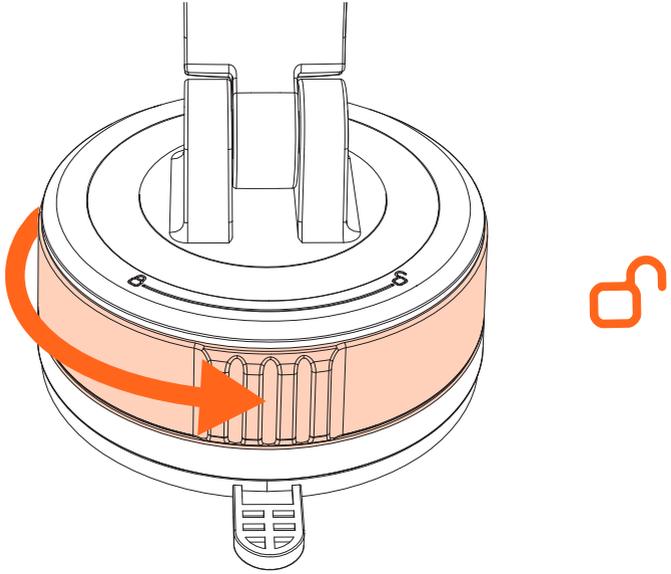

**Step 5**

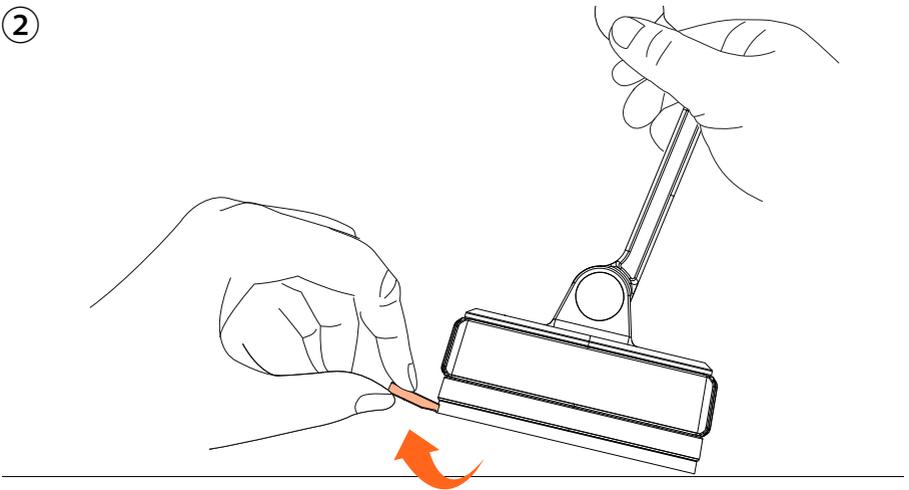

# How to Remove

①

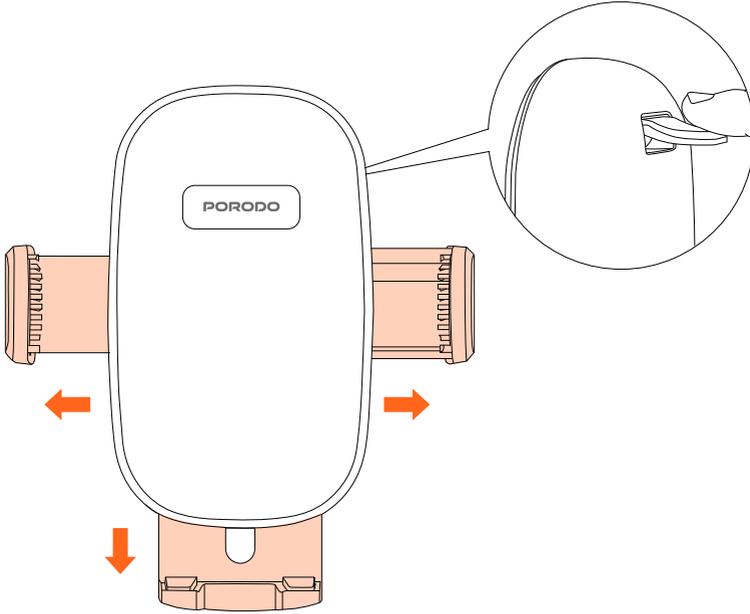

②

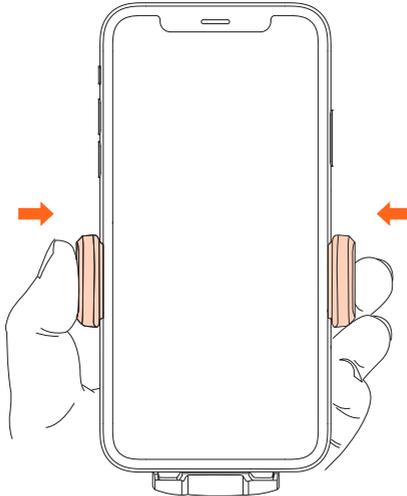

## Tightening the Holder

1. Press the "PUSH" button on the back to open the arms, and pull down the bottom tray.

2. Squeeze the arm back together to secure your device.

## Safety Precautions

1. Always ensure that the suction base is securely attached to a clean, flat surface before use. Avoid mounting the holder on uneven or textured surfaces, as this may affect the suction strength.
2. Position the phone holder in a way that does not obstruct your view while driving. Ensure it does not interfere with any air vents, buttons, or your ability to operate the vehicle safely.
3. Before driving, give the phone holder a gentle tug to make sure it is securely attached. If the suction base seems loose, remove it and reattach it.
4. Ensure that your phone's size is within the specified range (4.7" to 6.8"). Using a device outside of this range may cause instability or damage to the holder.
5. Do not expose the phone holder to extreme temperatures, such as leaving it in a hot car or in direct sunlight for extended periods. This may weaken the suction and affect its adhesive properties.
6. Clean the suction base regularly to maintain a strong hold. Use a damp cloth to wipe away dust or debris that may accumulate on the suction surface.
7. Ensure the phone holder is placed in a location that will not interfere with the activation of airbags in the event of an accident.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.porodo.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
