Product Overview

The Green Lion Venetian Clip-On Wireless Earbuds offer a sleek design with durable titanium memory alloy and a stylish leather finish. Their open-ear clip-on design ensures comfort while providing excellent sound quality. Equipped with Bluetooth V6.0 for a stable connection and Environmental Noise Cancellation (ENC) for clear calls, these earbuds feature 17mm dynamic drivers for rich sound. They provide up to 24 hours of playtime and include an ambient LED light for a modern, futuristic look. With USB-C charging, these earbuds combine practicality and style for an enhanced listening experience.

Specifications

Model No.	GL-TWS95
Material	ABS + Titanium Alloy
Case Battery	300mAh
Earbuds Battery	50mAh
Bluetooth	V6.0
Transmission Range	10m
Speaker	17 × 12mm
Frequency	20Hz-20kHz
Impedance	6Ω±%15

Sensitivity	92±3 dB
Waterproof	IPX4
Charging Port	USB-C
Charging Time	2 Hrs
Single Playtime	7 Hrs
Playtime with Case	24 Hrs
Standby Time	80 Hrs
Product Weight	49.6g
Product Dimensions	68.2 × 44.6 × 34.3mm

Bluetooth Pairing Guide

- 1. Activate Bluetooth:** Ensure Bluetooth is enabled on your device. Go to the Bluetooth settings on your iOS or Android device and turn on Bluetooth.
- 2. Prepare the Earbuds:** Open the charging case, take out the earbuds, and bring them close to your unlocked phone. The earbuds will enter pairing mode automatically.
- 3. Search for Bluetooth Devices:** On your device, navigate to the Bluetooth settings and search for available devices.
- 4. Select the Earbuds:** Find and select the earbuds labeled "GL-TWS95" from the list of available devices.

5. Confirm Connection: Once the connection is established, your earbuds will be ready for use. You may see a notification or hear a confirmation sound indicating a successful connection.

If the earbuds do not automatically pair, repeat the steps or reset the Bluetooth on both devices.

Operation Instructions

a. Left Earbud:

- 1. Voice Assistant:** Tap twice to activate the voice assistant.
- 2. Previous Song:** Tap three times to go to the previous song.
- 3. Toggle/Turn Off Lights:** Tap four times to toggle or turn off the lights.
- 4. Answer Call:** Tap twice to answer an incoming call.
- 5. Reject Call:** Press and hold for 2 seconds to reject an incoming call.

b. Right Earbud:

- 1. Pause/Play:** Tap twice to pause or play music.
- 2. Next Song:** Tap three times to go to the next song.
- 3. Toggle/Turn Off Lights:** Tap four times to toggle or turn off the lights.
- 4. Answer Call:** Tap twice to answer an incoming call.
- 5. Reject Call:** Press and hold for 2 seconds to reject an incoming call.

Charging Indicator Status

- 1. When Charging:** The white light flashes to indicate that the earbuds are charging.
- 2. When Fully Charged:** The white light stays solidly bright, signaling that the earbuds are fully charged.

Functionality Description

a. Basic Functions of the Earbuds

- 1. Turning On:** After opening the charging case, take out the left and

right earbuds. The earbuds will automatically power on and pair with each other.

2. Turning Off: Place the earbuds back into the charging case, and they will automatically turn off.

3. Single Earbud Use: To use a single earbud, take out one earbud, connect it via Bluetooth, and place the other earbud back in the case. The single earbud can then be used for calls or music.

4. Automatic Connection: If your device has previously paired with the earbuds and the pairing information is still stored, the earbuds will automatically reconnect when taken out of the case.

b. Basic Functions of the Charging Case

1. TWS Automatic Pairing: When the earbuds are placed back into the charging case and the case is closed, reopening the case will initiate pairing. The left and right earbuds will automatically pair with each other.

2. Charging Instructions: When charging, the white light on the charging case will flash. Once fully charged, the light will remain steady and always on.

Instructions for Use

1. Storage: The earphones should be stored in a dry, well-ventilated environment to avoid contact with oil, water, steam, and other elements that could affect product performance.

2. Avoid Harmful Chemicals: Avoid using irritating solvents or materials containing harmful ingredients that could damage the earphones.

3. Proper Usage: The earphones should be used correctly according to the user manual. It is recommended that the distance between the earphones and the paired mobile phone be no more than 10 meters for optimal connection.

4. Connection Issues: If the earphones experience poor connection or communication issues, do not remove the earphones or their accessories. Ensure proper positioning to maintain connectivity.

5. Charging: To charge the earphones, use only the standard charger specified by the manufacturer. Ensure the earphones are fully charged before use.

Troubleshooting

1. Charging Issues: If your earbuds are not charging properly or are overheating during charging, ensure you are using a 5V 2A power adapter (adapters with higher output may require a replacement).

2. Audio Problems: If you encounter sound issues such as no sound or distorted sound, try the following steps:

a. Turn off and then restart the device.

b. Ensure the earbuds are properly connected to the device and not disconnected.

c. If the issue persists, check the connection again by re-pairing.

3. Connection Problems: If your earbuds are having difficulty connecting to your device, check for the following:

a. Make sure there is no interference from other Bluetooth devices.

b. Ensure the device is within the proper range for connection (within 10 meters).

c. If issues continue, reset the earbuds and attempt the connection again.

4. Battery Flow and Charging Circuit: The charging process should generate minor heat, which is expected due to the magnetic charging design. However, excessive heat or a loud "buzzing" sound during charging could indicate a malfunction. In such cases, please stop using the device and contact support for further assistance.

5. Maintaining Optimal Usage: Ensure that your earbuds are connected properly and the charging case is clean. Avoid extreme environments, such as too hot or too cold areas, as this can impact performance. After long periods of non-use, make sure the device is properly recharged before use.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
