## Product Overview

The Porodo MAGNIFOLD Ultra-Slim Phone Holder is the perfect blend of sleek design and versatile functionality, offering a secure and reliable way to hold your device. Whether you're using it with a laptop, tablet, phone, or car display, this holder ensures a stable position for your device, making it ideal for both work and leisure. Its ultra-slim profile allows it to fit effortlessly into any setup without taking up much space, while the powerful magnetic hold guarantees that your device stays securely in place even during movement. With multi-device compatibility, this phone holder provides a seamless and stylish solution for anyone seeking a portable, efficient, and modern accessory for their tech setup.

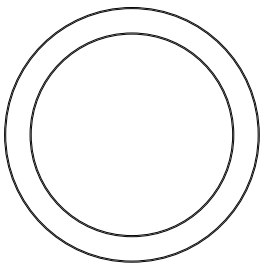

## Specifications

Magnet Type	N52
Load Weight	350g
Product Weight	77g
Product Size	8.3 x 59x 86.9mm
Model Number	PDMDPHC9

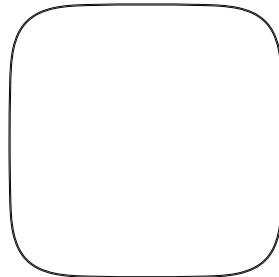

## Package Contents

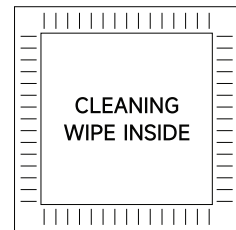

Magnetic Phone Holder

Metal Plate

Metal Place Base

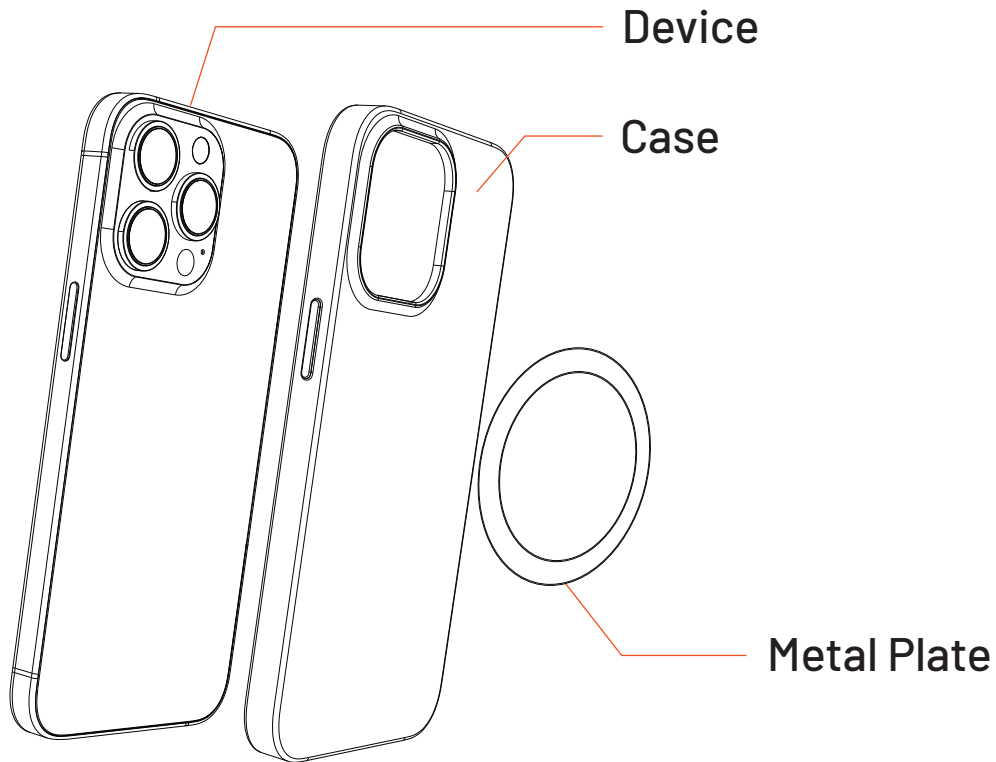

Cleaning Accessories

## Metal Plate Setup

### A. For Non-MagSafe Phone Cases

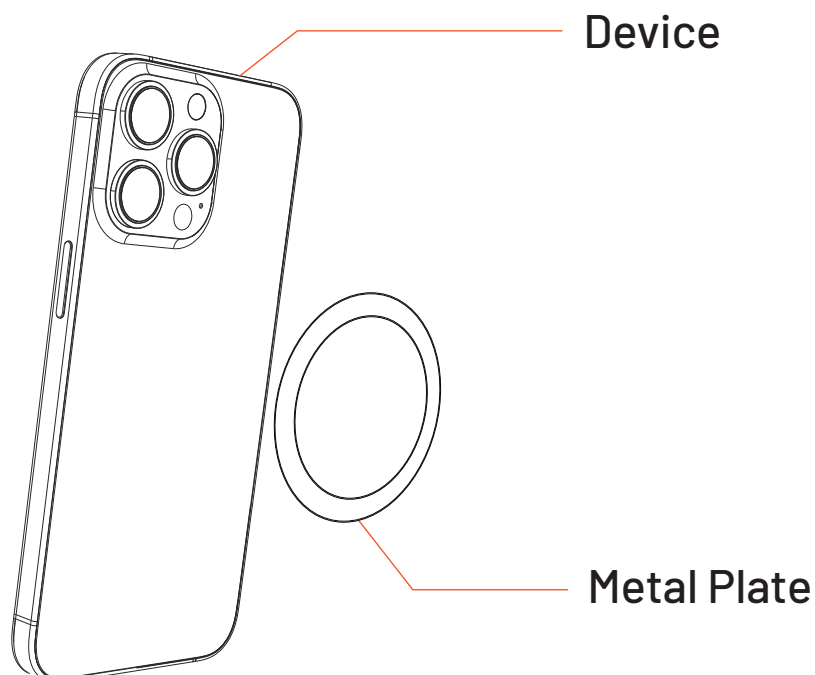

1. Clean the phone case thoroughly. Ensure the surface is free from dirt and oils before applying the plate.
2. Stick the metal plate at the center of the phone case, making sure it is properly aligned.
3. Allow the adhesive to fully bond before using the magnetic plate to ensure it stays securely attached.

**Note:** Silicone or TPU phone cases are not compatible with this setup.

**B. For Mobile Phones (Other than iPhone 12-16 Models)**

- 1.** Ensure the back of the phone is clean and dry before applying the plate.
- 2.** Place the metal plate at the center of the phone's back.
- 3.** Wait for the adhesive to set properly before using the magnetic plate.

## Installation guide

- Recommended Usage Locations and Devices:

Car Screen

Car Dashboard

Laptop

Tablet

Monitor

Desktop

- After choosing your location and device, follow these steps:

### **1.** Clean the Surface:

Use the provided cleaning cloth to thoroughly clean the surface where the product will be attached. Allow the surface to dry completely before proceeding.

### **2.** Prepare the Metal Plate Base:

**a.** Peel off the protective film from the self-adhesive tape on the metal plate base.

**b.** Position the metal plate base carefully on the chosen surface. Ensure it is aligned correctly.

**c.** Once in place, press down firmly to ensure the adhesive sticks well. Allow the adhesive to set by waiting for 24 hours before continuing.

### **3.** Unfold the Magnetic Holder:

Gently unfold the magnetic holder, ensuring it is fully extended and ready for use.

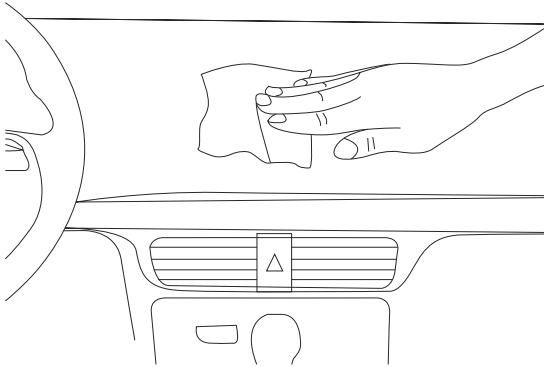

### **4.** Attach the Magnetic Bracket:

**a.** Place the magnetic bracket onto the metal plate base.

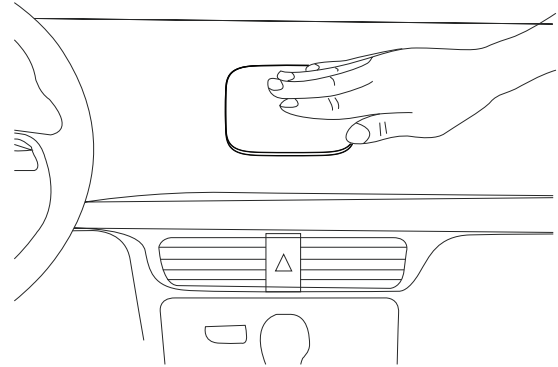

**b.** Adjust the bracket to the desired angle, ensuring it is secure and stable in position.

## Important Usage Instructions

- 1. MagSafe Compatibility:** This product is compatible with MagSafe, designed for iPhone 12 and newer models, or phone cases with the MagSafe feature. For older iPhone models or Android devices, please use the included Metal Plate to ensure proper attachment.
- 2. Compatibility with Non-MagSafe Cases:** For iPhone 12 and newer models with non-MagSafe compatible cases, the magnetic strength may be weaker. In such cases, please use the included Metal Plate to maintain proper phone mount functionality.

**3. Surface Preparation:** Before installation, ensure the surface area is thoroughly cleaned using the included Cleaning Accessories. The surface must be dry before applying the self-adhesive tape for optimal adhesion. After installation, allow the mount to set for 24 hours before use to ensure a secure hold.

**4. Rotation Shaft Testing:** The rotation shaft is tested to withstand up to 5000 rotations. To maintain the integrity of the mount, avoid excessive or rapid rotation in short periods, as this may damage the mechanism.

## **Safety Precautions**

**1.** Clean and dry the surface thoroughly before applying the mount. Ensure the adhesive is firmly attached to avoid accidental detachment while driving.

2. Only use the mount to hold devices that are within the specified weight limit. Overloading the mount can lead to it detaching or damaging your device.
3. Mount the car holder in a location that does not obstruct the driver's visibility or interfere with vehicle controls.
4. Avoid attaching the mount to wet, oily, or dirty surfaces, as this can reduce the effectiveness of the adhesive.
5. Ensure that your phone or device is properly secured to the mount before starting the car to prevent it from falling or shifting during movement.
6. Over time, the adhesive may lose its effectiveness. Periodically check the mount to ensure it is still securely attached.
7. This mount is designed for phones and similar devices. Do not use it for other heavy or large items that could damage the mount or your vehicle.
8. Prolonged exposure to extreme heat or cold may affect the adhesive's performance. Avoid placing the mount in areas with high direct heat or freezing conditions.
9. When adjusting the mount's 360° rotation, do so gently to avoid damaging the mechanism.
10. Avoid using the adhesive mount on glass surfaces or windshields, as it may not adhere properly and could result in damage.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.

For more info, please check:
