Product Overview

The Green Lion Juice Mate Pro is a portable juicer featuring a powerful 180W motor and a high-speed 18,000 RPM blade system, designed for quick blending in just 20 seconds. It offers a 470ml capacity and is made from food-grade, BPA-free materials with SUS 304 stainless steel blades. The juicer is equipped with a sleek LED display, Type-C charging, and can handle up to 20 blending cycles per charge. It also includes safety features like a 20-second auto-off function, ensuring a reliable and efficient juicing experience. The product is compact, lightweight (450g), and perfect for on-the-go use.

Specifications

Safety Precautions

For household use only, it is essential to follow basic safety precautions when using electrical appliances. Before operating the device, make sure to read the entire manual thoroughly, paying special attention to the safety warnings and guidelines provided. This will help ensure safe and proper use. Additionally, keep the manual in a secure location for future reference, so you can easily access it whenever needed.

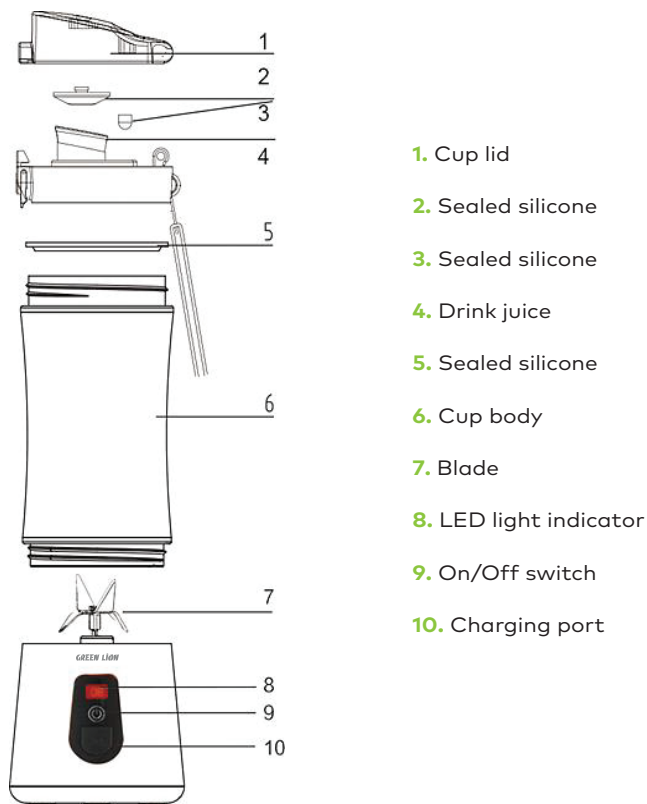

Do not soak the base in water. When cleaning, ensure the charging port does not come into contact with water.

1. This product is compatible with all types of smartphone chargers. For optimal performance, charge for no more than 3 hours, with a recommended charging time of 8 hours.
2. When in use, ensure the product is securely closed to avoid accidents. Always remove the cover and any objects that may obstruct the cup.
3. When cleaning the product, ensure that the switch is turned off and the cup, base, and lid are cleaned separately. Avoid immersing the unit in water or other liquids for extended periods, as this may damage the internal components.
4. Do not place any part of the product in a dishwasher or similar cleaning equipment.
5. The product is designed for short intervals of use. After 20 seconds of operation, the unit will automatically stop.
6. Avoid using the blender with the cover on to prevent damage.
7. Do not use steel wool, abrasive cleaners, or corrosive liquids for cleaning, as they may damage the product.
8. This unit is intended for use with fruit and vegetables only. Do not use it to grind hard nuts or beans, as this can lead to failure.
9. The blade is sharp, and caution is advised to avoid injury during use and cleaning. Protective gloves are recommended when handling.
10. Keep the product out of reach of children, particularly those who

are physically or mentally impaired. Do not allow them to play with the unit.

11. This product is intended for household use only. If you experience problems during maintenance, please contact customer service. The company does not assume responsibility for damages caused by improper handling or lack of relevant knowledge.

Product Design

Setup Guide

Ensure the battery is fully charged before use. Once charged, clean all parts that come into contact with the ingredients.

This product features double safety protection and will only function when the cup is properly secured to the stand.

1. Prepare the Fruit

Wash the fruit thoroughly.

Cut the fruit into small pieces, approximately 1.5x1.5 cm in size.

Remove any seeds, thick skins, or hard shells from the fruit before placing them into the cup.

2. Add Water

Fill the cup with the fruit pieces, ensuring that the cup is about %60 full.

Add water until the total volume reaches about %80 of the cup's capacity. This will ensure the optimal consistency for juicing.

3. Start Juicing

Place the product upside down and turn on the power switch.

The motor will begin operating. Gently shake the product to improve the juicing effect and ensure a smoother result.

4. Finish and Drink

Once the juice is prepared, turn off the power switch and unscrew the lid to access the juice.

If any fruit residue remains, use the first filter to strain it before drinking.

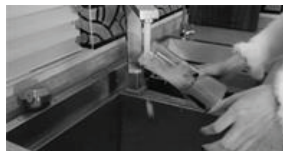

Product Usage

1. Open the lid.
2. Cut the fruit into pieces about 1.5 cm in size and place them in the cup, ensuring they fill no more than two-thirds of the cup.
3. Add water to the cup.
4. Securely close the lid.
5. Press the power switch to start.
6. The juicing process will begin and automatically shut off when complete.

Product Cleaning

1. Remove the lid
2. Wash the cup body
3. Wash the Blades

Problem Solving

| PROBLEM | REASON | HOW TO SOLVE |
|---|---|---|
| 1. Unable work, LED display no indicate | 1. The body and the base no screw up | 1. crew up the body and the base |
| 2. Stop during use and LED display show Lo | 2. No power | 2. Charge power |
