Specifications

Input	5V/0.5A
Rated Power	5W
Battery Capacity	1500mAh
Brightness	190LM
Working Time	3-5H
Charging Time	5H
Coverage	100m
Charging Interface	USB-C
Material	Aluminum Alloy
Product Size	59 x 30 x 140mm
Product Weight	120.1g
Model Number	PDA90501

Product Overview

The Porodo Lifestyle BIRCH 190 Wooden LED Flashlight combines functionality with style, featuring a sleek wooden handle and a durable aluminum shell. Equipped with a 190-lumen LED bulb, it provides an ultra-bright beam with a coverage of up to 100 meters, making it ideal for outdoor activities or emergencies. The flashlight offers up to 5 hours of working time and multi-mode operation, allowing you to adjust the light for various needs. Whether you're camping, hiking, or preparing for power outages, the BIRCH 190 is a reliable and versatile lighting solution for any adventure.

Key Features

- 1. 190-lumen LED light:** The high-powered LED bulb delivers a bright, clear beam, ensuring excellent visibility in dark environments. Whether you're navigating through the woods or dealing with a power outage, this flashlight provides the illumination you need.
- 2. 100-meter beam coverage:** With an impressive beam range of 100 meters, the BIRCH 190 ensures you can light up large areas, making it ideal for outdoor adventures, security purposes, or emergencies.
- 3. hours of runtime:** Enjoy extended use with up to 5 hours of working time on a single charge. This feature makes it perfect for long trips, outdoor activities, or times when access to power is limited.
- 4. Durable aluminum body:** The flashlight is built with a tough aluminum shell, offering excellent protection against wear and tear. It is resistant to impacts, making it a reliable tool for challenging environments.
- 5. Multi-mode functionality:** The BIRCH 190 comes with different lighting modes, allowing you to adjust the brightness or choose between a focused beam or a broader, softer light based on your needs. Whether you're camping, reading, or in need of a signal light, this flashlight offers versatility.

6. Long-Lasting Performance and Efficient Charging: The built-in 18650 lithium-ion rechargeable battery is capable of withstanding over 500 charge and discharge cycles, ensuring reliable and long-lasting performance. The device is equipped with high-brightness, concentrated LED lamp beads that offer exceptional energy efficiency. These environmentally friendly LEDs are designed for extended use while consuming minimal power. Additionally, the device includes a standard 5V charging cable, guaranteeing a safe and dependable charging experience.

Charging Instructions

1. Charging Time Limit:

The charging time should not exceed 24 hours. Prolonged charging can overheat the components and reduce battery efficiency. Always monitor charging sessions carefully and never leave the device charging unattended for extended periods.

2. LED Light and Battery Protection:

During usage, the LED light may dim when the battery is nearing a discharge state. If this occurs, the device should be immediately stopped and placed on charge to avoid further discharge. Recharging the device at this point is crucial to prevent battery damage.

3. Charging Conditions:

Do not charge the product when the LED light is completely dim or dark, as this indicates the battery is very low and may be susceptible to damage. For optimal battery health, it is important to recharge the device as soon as the LED light dims.

Safety Precautions

1. Avoid shining the charging light directly into the eyes to prevent any risk to vision.

2. Children should use the device under adult supervision at all times.
3. Do not operate the product while it is charging, as this could potentially damage internal components or the LED. Always allow the device to charge without use for optimal protection.
4. To ensure longevity, the device should be used regularly. If it is not used frequently, recharge it every three months to maintain battery health. Failure to do so may result in reduced battery life and performance.
5. Avoid placing the device near flammable or explosive materials, and do not attempt to replace parts without proper authorization.
6. The company does not assume responsibility for any damages or adverse effects arising from non-compliance with the above safety instructions.
7. If the flashlight is not water-resistant or waterproof, avoid using it in damp environments to prevent damage or electrical hazards.
8. Always handle the flashlight with care. Avoid dropping or striking it against hard surfaces, as this can damage the internal components or cause the lens to crack.
9. When not in use, store your flashlight in a secure, dry place away from excessive moisture, heat, and direct sunlight to maintain its longevity and performance.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
