Product Overview

The Porodo TrioLink 3 in 1 Charging Cable is the ultimate charging solution for those who want convenience and efficiency. Featuring three connectors in one cable—Type-C, Lightning, and iWatch—this versatile cable allows you to charge multiple devices simultaneously without the need to carry separate cables. With 60W PD fast charging support, it ensures your devices are powered up quickly and efficiently, saving you valuable time. The cable is designed with a tangle-free braided material, keeping it neat and hassle-free for everyday use. Additionally, its durable construction ensures long-lasting performance, so you can rely on it for extended periods. Perfect for tech enthusiasts, the cable is also compatible with iWatches, providing a complete solution for charging your devices. Whether you're at home, at the office, or on the go, the Porodo TrioLink 3 in 1 Charging Cable combines practicality, speed, and durability, making it an essential accessory for your tech needs.

Specifications

Input Connector	Type-C
Type-C Output	60W
Lightning Output	10W
iWatch Charger Output	5W
Cable Length	1.2m

Material	Aluminum alloy + TPE
Model Number	PDCCLWC60W

Key Features

- 1. Versatile Compatibility:** The TrioLink cable is a 3-in-1 solution that lets you charge all your essential devices using just one cable. It is equipped with three connectors: Type-C, Lightning, and iWatch, allowing you to charge a wide range of devices, including Android smartphones, iPhones, and Apple Watches. Whether you need to power up your phone, tablet, or smartwatch, this single cable does it all, eliminating the need for multiple cords and making it an ideal choice for home, office, or travel.
- 2. Fast Charging (60W):** With up to 60W of power delivery, this cable supports fast charging for devices that are compatible with quick charge technology. This feature ensures that your devices are charged in a fraction of the time compared to standard cables, providing you with more power when you need it the most. Whether you're charging a phone or tablet, the TrioLink cable ensures a faster and more efficient charging experience, minimizing downtime.
- 3. Tangle-Free Design:** The TrioLink cable is crafted with a durable, braided design that prevents knots and tangles. The flexible, yet sturdy braided material ensures that your cable stays organized and easy to handle, no matter how often you use it. This feature makes it perfect for those who are always on the go, as it eliminates the frustration of tangled wires in your bag or desk drawer.
- 4. Durable Material:** Built to withstand everyday wear and tear, the TrioLink cable features high-quality, durable materials that ensure long-lasting performance. The robust outer casing and reinforced connectors provide

added strength to prevent fraying, bending, or breaking. Whether you're constantly plugging and unplugging your devices or using them for travel, this cable is designed to handle daily use without compromising on functionality.

5. Smartwatch Charging: One of the standout features of the TrioLink cable is its dedicated iWatch charging connector. With this built-in Apple Watch charger, you no longer need a separate cable for your smartwatch. Simply connect the iWatch charging point, and your watch will be ready to go. This feature adds convenience and ensures that all your devices are charged with one compact, multi-functional cable.

6. Universal Connection: The TrioLink cable offers seamless connectivity across a variety of devices. From smartphones, tablets, and laptops to Apple Watches, this universal charging solution eliminates the need to carry multiple cables. Whether you're at home, in the office, or on the move, you can rely on the TrioLink cable to keep your devices charged and ready, simplifying your charging setup and reducing clutter.

Usage Instructions

1. Select the Appropriate Connector:

Choose the correct connector based on the device you want to charge. The TrioLink cable is equipped with three connectors:

- a.** Type-C for Android devices and other compatible devices.
- b.** Lightning for Apple devices (iPhone, iPad).
- c.** iWatch for charging Apple Watches.

2. Connect to a Power Source:

- a.** Plug the USB Type-C end of the cable into a compatible power adapter, USB port, or power bank.
- b.** Ensure that the power source is capable of providing adequate power for fast charging (up to 60W for efficient performance).

3. Connect to Your Device:

Insert the appropriate connector (Type-C, Lightning, or iWatch) into the corresponding charging port on your device.

- a.** For iPhone, iPad, or other Apple devices, use the Lightning connector.
- b.** For Android phones or other devices with USB-C ports, use the Type-C connector.
- c.** For Apple Watches, connect the iWatch charger to the device.

4. Charging Indicator:

- a.** Once connected, your device should display a charging icon or indicator to confirm that the cable is successfully delivering power.
- b.** Depending on your device, the charging speed may vary. With a compatible power source, the TrioLink cable will support fast charging up to 60W.

5. Avoid Overloading:

Charge only one device per connector to prevent overloading the cable or power source. Charging multiple devices simultaneously from the same cable may impact charging efficiency.

Storage

After use, store the cable in a dry, cool place away from direct sunlight or heat sources. To maintain its tangle-free design, coil the cable loosely when storing it.

Cleaning

Occasionally, clean the connectors and the cable with a dry cloth to ensure no dust or dirt accumulates. Avoid using water or cleaning chemicals directly on the cable.

Safety Precautions

1. Avoid Overloading:

Ensure that you do not exceed the recommended charging limits for your devices. Overloading the cable with too many devices or using it with high-wattage chargers beyond its capacity may cause overheating or damage to the cable.

2. Inspect Regularly for Damage:

Before use, check the cable for any signs of wear and tear, such as fraying or exposed wires. Do not use the cable if it shows signs of damage to prevent the risk of electric shock or fire.

3. Use Properly Rated Chargers:

Always use a compatible charger that supports the charging speed (60W) of the TrioLink cable. Using a low-power charger may not provide optimal charging performance and could lead to inefficiency or damage over time.

4. Keep Away from Water:

The TrioLink cable is not water-resistant. Avoid using or storing the cable in damp or wet environments, as moisture exposure can cause electrical malfunctions or short circuits.

5. Do Not Bend Excessively:

Avoid bending the cable sharply or pulling it with excessive force. The cable's durability is enhanced by its braided design, but sharp bends or tugs can still damage the internal wiring, leading to a malfunction.

6. Keep Out of Reach of Children:

To avoid choking hazards or accidents, keep the charging cable away from young children. Ensure that the cable is stored safely when not in use.

7. Avoid Charging Overnight:

While the TrioLink cable supports fast charging, it is recommended to unplug your devices once they reach full charge. Overcharging may reduce the longevity of both your devices and the cable.

8. Use on Flat Surfaces:

To prevent strain on the cable, always place your charging setup on a flat, stable surface. This helps avoid unnecessary tension and wear that could damage the cable or cause accidental disconnections.

9. Avoid Using While Charging in Extreme Temperatures:

Do not charge your devices in areas with extreme heat or cold. Charging in such environments can cause the cable to overheat or malfunction, potentially affecting the safety of your device.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
