## Warning

Please consult your doctor before beginning a new exercise program. Although the smartwatch can track your real-time dynamic heart rate, it is not intended for medical use. It is designed to assist individuals in maintaining a healthier lifestyle. Be sure to seek medical advice before starting any exercise or diet regimen.

## Equipment Requirements

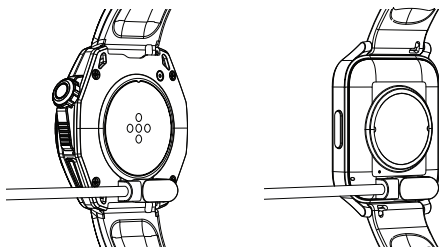

Supports Android 5.0, iOS 9.0, and above Bluetooth 4.0 devices. Devices with Android version 6.0 and higher need to enable GPS to use it.

## Charging

If the device is not used for a long period, please make sure to recharge it every month.

Schematic Diagram of Magnetic Charger:

- a. Please align the magnetic wire with the metal piece of the bottom case. The magnet will automatically attract and charge the positive and negative poles.
- b. Please ensure that the charging contacts are free of dirt and impurities. If there are any, please wipe them clean, otherwise charging will not be possible.
- c. Plug the USB into the 5V 500mA adapter, and it will be fully charged in 2-3 hours.

## Schematic Diagram of Wireless Charging Charger:

- a. Please align the charging base with the bottom case, and the concave surface of the base will automatically align and absorb charging.
- b. Make sure there are no foreign objects adhered to the wireless charging position and the bottom of the watch, otherwise, it may cause poor charging.
- c. Plug the USB into the 5V 500mA adapter, and it will be fully charged in 3-4 hours.

## Mobile phone connection

**Power On:** Charge or press the smart watch side button for 3 seconds.

**Install APP:** Scan the QR code through the mobile phone, or search for "Da Fit" in the Apple App Store or Google Play Store to download and install.

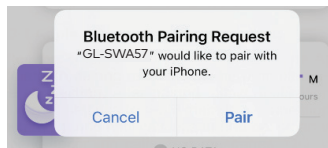

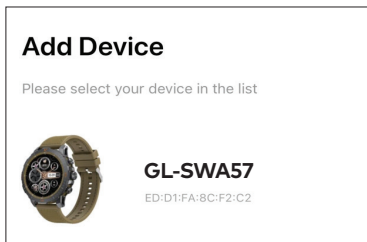

## Mobile Application & Connection

Place the smart watch close to the mobile phone, follow the app connection wizard prompts to turn on the phone's Bluetooth, enable the GPS, search for the "device model" of the smart watch in the app, and connect. Set personal information according to the app prompts, allow the app to obtain mobile phone permissions, and complete the connection.

### Apple Device Pairing Connection:

After the smart watch is connected to the Apple App for the first time, a "Bluetooth pairing request" will be prompted. Please click "Pair" to complete the connection. After pairing, allow notifications to be displayed: check the Bluetooth settings to see if there is a connection, enter and check whether the system sharing notification is turned on, and only in this way can you receive incoming calls, text messages, and other notifications.

reminders pushed from the IOS system, Otherwise, you cannot receive reminders.

### Android Device Connection:

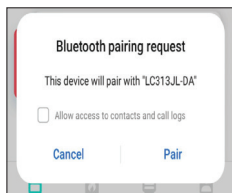

The Android system needs to enable the app background running permission in the phone manager or system settings (turn on the app's auto-start, high power consumption protection, whitelist, etc., and turn off the phone's power-saving mode. Otherwise, the app will be cleared by the system), then disconnect from the smartwatch.

### Pairing Connection Call Bluetooth

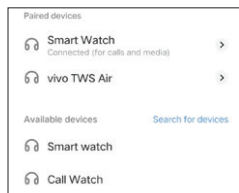

Android device connected to Bluetooth for calls:

After the app is connected, turn on the Bluetooth call on the watch, and the phone will pop up a call pairing prompt. Click on the pairing to complete the call Bluetooth connection with the "GL-SWA57".

Some mobile phones need to manually enter settings, Bluetooth, search for "GL-SWA57" and click to connect.

After the APP is connected, turn on the Bluetooth call on the watch, and the phone will pop up a call pairing prompt. Click on the pairing to complete the call Bluetooth connection with the "GL-SWA57".

Some mobile phones need to manually enter settings, Bluetooth, search for "GL-SWA57" and click to connect.

Apple devices connect to Bluetooth for calls:

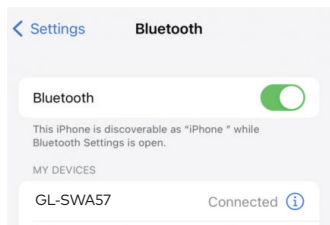

(iOS 13 and above systems automatically connect to Bluetooth for calls after connecting to the app, and systems below iOS 13 need to manually connect to Bluetooth for calls.)

Systems below iOS 13:

After the app is connected to the watch, turn on the call Bluetooth switch of the watch, then open the phone's settings, Bluetooth, search for Smart Watch (GL-SWA57), and click Connect.

iOS 13 and above systems:

After the app is connected to the Apple device, the Bluetooth pairing will be automatically done for calls. If necessary, you can check the connection status in the phone's Bluetooth settings.

## Unbind

Unbinding Android devices:

Click "Unbind" on the app's device to unlink the smartwatch from the app.

## Unbind Apple devices

Click "Unbind" in the app's device to unlink the smartwatch from the app. Then, enter the phone's settings, go to Bluetooth, click the exclamation mark behind the Bluetooth device "Smart Watch," and click "Ignore device" in the pop-up dialog box. This will completely disconnect the smartwatch.

## Function Interface

-The smartwatch theoretically supports iOS 9.0 and Android 5.0 versions and above, along with Bluetooth 4.0. Not all mobile device models are supported. Please refer to the actual situation for details.

-This machine uses 5V 500mA charging. It is strictly prohibited to use an over-voltage load power supply, as it may cause hardware damage.

-The smartwatch battery is built-in and cannot be removed. Please do not attempt to replace the battery.

-The operating environment for smartwatches is between 0°C to 45°C; the charging temperature is between 0°C to 45°C.

-Please pay attention when wearing it. If you have sensitive skin or wear the smartwatch too tightly, you may feel discomfort.

-When the smartwatch is exposed to water, please wipe it dry before charging. Otherwise, it may cause malfunction and corrode the charging contact points.

## Specifications

Case Material	Zinc Alloy, SS, PC, ABS
Strap Material	Silicone
Battery	400mAh
Display	1.43'' AMOLED
Bluetooth Version	V5.3+V3.0
RAM+ROM	640KB + 16MB
Flash Memory	128MB
Charging Type	Magnetic Pin Charging
Charging Time	3-4 Hrs
Working Time	7 Days
Standby Time	30 Days
Waterproof	IP68
Product Weight	64.4 g
Product Size	53.5*47.7* 11.5 mm

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
