Product Overview

The Green Lion Ultra Lite Smart Watch combines functionality and sleek design, making it the perfect companion for daily use. Featuring real-time notifications and health monitoring, it keeps you connected and informed. The 200mAh battery ensures extended usage, offering up to five days of battery life. This smartwatch is equipped with V5.4 Bluetooth for seamless connectivity, while the IP65 waterproof rating provides durability for everyday activities. The 2.01" TFT IPS display ensures clear visibility with its always-on feature, and the custom watch faces allow for personalized style. It includes Bluetooth call functionality and wellness insights, helping you stay on top of your fitness goals. With a featherlight design, it is both comfortable and stylish for all-day wear. Additionally, it offers weather forecasts to keep you prepared for the day ahead.

Specifications

Battery	200mAh
Display	2.01" TFT IPS
Resolution	240*296
Brightness	420 nits

Bluetooth	V5.4
Storage	32Mb Flash
Charging Method	Wireless
Charging Time	2.5 Hrs
Working Time	3-5 Days
Standby Time	10 Days
Waterproof	IP65
Product Weight	41.5 g
Product Dimensions	48*43*12 mm

Installing the App

1. Scan the QR code below to download the LAXASFIT app.
2. Install the app and set up your profile.
3. On the App, go to devices and click "Add device."
4. Search for "GL-SWA64" and select it to pair.
5. Ensure that the Wi-Fi is enabled on your mobile phone.
6. Locate the "MAC" address of your watch in "Settings" > "About."
7. When the watch is linked to the app for the first time, wait for a pop-up message requesting permission to allow the watch to use wireless features. If you have accidentally restored the factory settings on the watch, please repeat the steps above to reconnect the watch.
8. If the watch remains on for more than 120 seconds without connecting

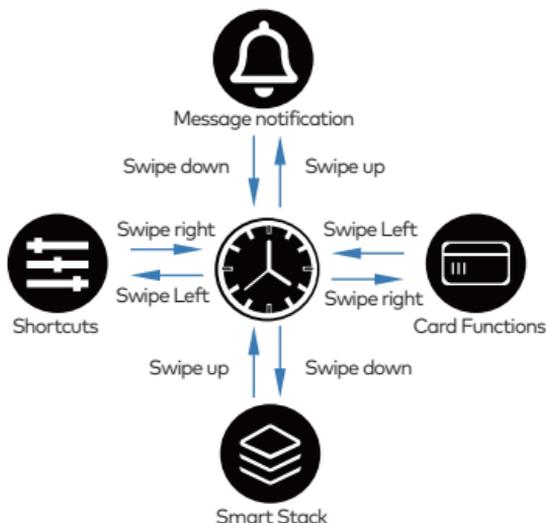

to the app, it will automatically turn off the wireless feature. If you wish to connect to the app at this point, you will need to enable the wireless feature in the "Settings" > "Watch" section of the watch,

Charging Instructions

Before the first use, please charge the smart watch and then turn it on. The wireless charging can be done through the back of the watch. Please use a 5V 1A charger to charge the smart watch.

Operating Instructions

Smart Watch Features

- 1. Wireless Call:** Open the app to link the wireless feature of the watch. After synchronizing with the phone, you can make, answer, or reject calls directly on the watch.
- 2. Message Reminder:** To receive all messages and social media notifications, you must enable notification authorization on your phone.

-  **3. Sports Mode:** Enter the exercise mode (running, jumping rope, cycling, climbing) from the selection interface and start data monitoring.
-  **4. Exercise Record:** Record all exercise data.
-  **5. Pedometer:** Tracks your steps for the day and resets the data at 00:00 AM. The data can be viewed in the app.
-  **6. Sleep Monitor:** Enable Sleep Monitor to track the quality of your sleep while you are resting.
-  **7. Remote Shutter:** After the watch is connected to the phone, open the shutter mode in the "APP" interface. Click, tap, or shake the watch to take pictures, and the images will be automatically stored on the phone.
-  **8. Music Player:** After connecting the device, you can remotely control the music player on your phone.
-  **9. Find Mobile Phone:** When the watch and mobile phone are connected, tap the watch to find the mobile phone. Long-press the magnifying glass icon, and the mobile phone will ring.
-  **10. Weather:** It shows the weather information for the current and upcoming day. The weather info is synced after reconnecting with the app and will not update if the device has been disconnected for an extended period.
-  **11. Stopwatch:** Tap the start button on the stopwatch page to start timing, and tap the stop button to stop timing.
-  **12. Alarm:** Alarms can be set in the app or the watch, with up to 8 alarms. The watch will display an alarm icon and vibrate at the set time.
-  **13. Sedentary Reminder:** Set the sedentary time. When the time is reached, the watch will vibrate to remind you, and the interface will display a reminder label.
-  **14. Always on Display:** After setting, the watch screen will display the time even after it turns off.
-  **15. Watch Face Style:** The UI style can be set to change.

16. About: Displays the MAC address, wireless name, and version number of the device.

17. Brightness: You can set the brightness level and the back light timeout time.

18. Settings: You can turn the vibration on or off and adjust the volume.

19. Language: After connecting to the App, you can set the language on the App or the watch side, and the language will be synchronized.

Frequently Asked Questions

1. Why can't the watch receive push notifications?

a. Make sure that the "Message Push On/Off" is enabled on your mobile phone.

b. Ensure that the message notifications can be displayed in the notification bar of your phone. The device relies on whether the information can be read in the notification bar. If there are no notifications on your phone, the device will not be able to receive push messages. (You may need to find the notification settings on your phone to turn on/off multimedia message alerts.)

c. Enable the accessibility settings of your device. (Go to your phone's accessibility settings and ensure multimedia message alerts are turned on.)

2. Why can't I wear the watch in a hot bath?

The temperature of the bathwater is relatively high, which causes water vapor to form. This vapor, being in the gas phase, has a small molecular radius, making it easy to penetrate the device's case. As the temperature drops, the vapor condenses into water droplets that can easily cause a short circuit. This can damage the internal components, such as the circuit board, and potentially ruin the device. For the safety of your watch, it is advised to avoid wearing it in a hot bath.

Safety Instructions

1. Although the smartwatch is water-resistant, it is not recommended for use in hot showers, saunas, or swimming. Avoid submerging the watch in water for prolonged periods.
2. Only charge the smartwatch with the provided charger. Overcharging or using non-certified chargers may damage the battery and cause overheating.
3. Avoid exposing the smartwatch to extreme temperatures. Do not leave it in direct sunlight or in a car under high temperatures for extended periods.
4. The smartwatch is built to withstand normal daily activities but can be damaged by heavy impacts, drops, or crushing. Handle with care to prevent physical damage.
5. Keep the smartwatch away from powerful electronic devices, such as microwaves or magnets, which could cause malfunction or interference with the device's functionality.
6. Improper use, such as continuous exposure to wireless signals, may cause excessive energy consumption or reduce battery life.
7. While wearing the smartwatch, ensure it is not too tight. Prolonged pressure or friction on the skin may cause irritation.
8. Do not attempt to open or modify the smartwatch, as this may void the warranty or cause internal damage.
9. For optimal performance and safety, use only accessories (chargers, straps, etc.) approved by the manufacturer.
10. The health tracking features of the smartwatch should not be considered a substitute for professional medical advice or diagnosis. Always consult a healthcare provider for medical concerns.
11. In case of an emergency, the smartwatch can be used to receive notifications, but it should not be relied upon as the sole method of communication or emergency contact.

12. Keep the smartwatch out of the reach of young children. Small parts of the device itself can be a choking hazard.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference; and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
