Product Overview

The Porodo Sovo 5000mAh MagSafe Power Bank is a sleek, compact charging solution that combines functionality with design. Equipped with 20W PD (Power Delivery) and 15W wireless charging capabilities, it ensures fast and efficient charging for your devices. The MagSafe compatibility provides seamless attachment to your iPhone for convenient, wireless charging. With its charging LED light, you can easily monitor the battery status, making it a reliable companion for on-the-go power needs. Featuring a USB-C input/output, this power bank supports fast recharging and device charging, offering a convenient and portable solution for those who need power at their fingertips. The compact design makes it easy to carry, making it an ideal choice for everyday use.

Specifications

Material	PC + ABS
Battery Capacity	5000mAh
USB-C Input	5V/3A, 9V/2A, 18W Max
USB-C Output	5V/3A, 9V/2.22A, 12V/1.67A, 20W Max
Wireless Output	5W, 7.5W, 10W, 15W
Product Weight	121g
Product Size	21 x 66 x 77mm
Model Number	PDPBFCH036

Product Features

a. 5000mAh Capacity

The Porodo Sovo Power Bank comes with a 5000mAh battery capacity, providing ample power to charge your devices multiple times on the go. Whether you're charging your phone, tablet, or other electronics, this capacity ensures that you can stay powered up throughout the day without worrying about running out of charge.

b. 20W PD Fast Charging

Equipped with 20W Power Delivery (PD), the Sovo power bank enables rapid charging for your devices. This feature is perfect for fast-charging smartphones, tablets, and other electronics, cutting down the time you spend waiting for your devices to charge, and making it more convenient for busy users.

c. 15W MagSafe Wireless Charging

With MagSafe compatibility, the Sovo Power Bank offers a seamless and efficient wireless charging experience for iPhones. Simply attach your iPhone to the magnetic surface, and the power bank will automatically charge your device at 15W speed. This eliminates the need for cables and ensures a secure connection while charging.

d. USB-C In/Out

The inclusion of USB-C ports for both input and output adds versatility to this power bank. You can use the same cable to charge the power bank itself and to charge other devices, making it incredibly convenient for users with USB-C compatible devices. It also ensures a faster and more efficient transfer of power compared to older USB ports.

e. Charging LED Light

The integrated LED light provides a visual indicator of the remaining battery life, so you can always check the charge status of your power bank. Whether you're at home or on the go, the LED light helps you stay informed of how much power is left, ensuring you're never caught off guard with a dead battery.

f. Compact and Portable Design

Designed with portability in mind, the Sovo Power Bank is compact and lightweight. Its sleek design fits easily in your pocket or bag, making it an ideal charging solution for travelers, commuters, or anyone who needs extra power while on the move. The slim profile ensures it won't take up much space but still delivers substantial power.

Safety Instructions

- 1.** Always unplug the power bank once it reaches full charge to prevent potential damage to the battery. Overcharging may reduce the lifespan of the power bank and its efficiency.
- 2.** The power bank is not water-resistant. Avoid exposing it to water or other liquids to prevent short-circuiting or damage to the internal components. Store it in a dry area to ensure safe operation.
- 3.** Only use cables that are in good condition for charging. Damaged or frayed cables may cause short circuits or other safety hazards. Regularly inspect your cables for any signs of wear and replace them if necessary.
- 4.** Avoid storing the power bank in extremely hot or cold environments. High temperatures can cause the internal battery to overheat, potentially leading to damage or reduced capacity. Store it in a temperature-controlled area to ensure optimal performance.
- 5.** Do not attempt to open or disassemble the power bank. Doing so can damage the internal components and may void the warranty. If you encounter issues, contact customer support for assistance.
- 6.** To prevent overheating or overloading, avoid using the power bank while it's charging. Using it while connected to a power source can cause the unit to heat up, potentially leading to safety issues.
- 7.** For safety reasons, keep the power bank out of the reach of young children. The power bank contains lithium-ion batteries, which can be dangerous if mishandled or improperly used.

8. If the power bank becomes excessively hot during use or charging, unplug it immediately. Allow it to cool down before continuing to use or recharge. Prolonged exposure to high temperatures can damage the battery and reduce its lifespan.

9. Ensure that the power bank is used with devices that are compatible with its output specifications. Using devices that require higher voltage or incompatible charging speeds may result in slow charging or potential damage to the power bank and device.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.porodo.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
