## Product Overview

The Green Lion GMS-42 Manual Screwdriver is designed for precision and versatility, making it an essential tool for projects and small repairs. Featuring a 42-piece CR-V bit set with 4mm hex shanks and 28mm precision bits, this screwdriver allows quick bit changes through its push-release storage case. The aluminum alloy handle provides durability, while the manual driver ensures optimal control. Its 360° swivel rotation cap enables smooth movement, allowing for precise, effortless adjustments during use. The magnetic storage case keeps the bits organized and easily accessible, ensuring a hassle-free experience every time. Whether you're tackling intricate repairs or everyday tasks, this screwdriver is built for every detail.

## Specifications

Model No.	GMS-42
Bit Material	10x S2 Steel, 32x CR-V Steel
Handle Material	Aluminum Alloy
Precision Bit Size	28mm
Shank Size	4mm Hex Shank
Number of Bits	42 Pieces
Product Weight	202 g

Product Dimensions	38*38*134 mm
Slotted Bits	SL1.0, SL1.5, SL2.0, SL3.0, SL2.5, SL3.5
Phillips Bits	PH000, PH00, PH0, PH1, PH2
Hex Bits	H1.5, H2.0, H2.5, H3.0, H3.5
Torx Bits	T2, T3, T4, T5, T6H, T7H, T8H, T9H, T10H, T15H, T20H, T25H
Tri-Wing Bits	Y0.6, Y2.5, Y2, W1.5
Pentalobe Bits	0.8, 1.2
Triangle Bits	2.3 ,3.0, (G3)
U-Shape Bits	U2.6, U3.0
Square Bits	SQ0, SQ1
Sim Ejector Pin	0.8 mm

## Product Features

**a.** 42-Piece CR-V Bit Set: The Green Lion GMS-42 comes equipped with a comprehensive set of 42 high-quality CR-V (Chrome Vanadium) precision bits, designed for a variety of tasks. These bits are built to last, offering strong resistance to wear and tear, making the screwdriver ideal for long-term use in a wide range of DIY and small repair projects.

**b. Aluminum Alloy Handle:** The handle of the screwdriver is made from durable aluminum alloy, providing both strength and a lightweight feel. This material ensures that the tool remains sturdy under pressure while still being easy to handle for precise work, reducing hand fatigue during extended use.

**c. 360° Swivel Rotation Cap:** The screwdriver features a unique 360° swivel rotation cap, which allows for smooth and controlled movement. This feature enhances precision, enabling you to work in tight spaces and maintain constant control, even during prolonged or repetitive tasks.

**d. Quick-Swap Bit Change:** One of the key features of the GMS-42 is its easy and efficient bit-swapping mechanism. The quick-swap system allows you to effortlessly change bits without the need for additional tools, ensuring you're always ready to tackle the next step of your project quickly and without interruption.

**e. Magnetic Storage Case:** The included magnetic storage case ensures that the 42 bits are organized and securely stored. The magnetic feature keeps bits in place, preventing them from falling out when the case is opened. This convenience helps to keep your workspace tidy and makes it easier to find and access the right bit for any job.

**f. Ideal for full-scale & Small Repairs:** The Green Lion GMS-42 Manual Screwdriver is specifically designed to cater to full-scale enthusiasts and those tackling small repairs. Whether you're fixing electronics, assembling furniture, or completing other household tasks, this tool offers the versatility and functionality required to handle a variety of intricate jobs with ease.

**g. 4mm Hex Shank & 28mm Precision Bits:** The screwdriver's bits are equipped with 4mm hex shanks and 28mm lengths, offering precise and secure fitment. The combination of these measurements ensures a stable grip on screws, minimizing slipping and providing excellent torque for both small and medium-sized tasks.

## Safety Precautions

1. Always hold the screwdriver firmly by the handle, ensuring a comfortable and secure grip to prevent slipping during use. This will reduce the risk of injury or accidents while applying pressure.
2. When using the screwdriver, avoid over-tightening screws, as it can damage both the screw and the material you're working with. Apply steady, even pressure to achieve a secure fit without causing strain.
3. After use, always store the screwdriver bits in the provided magnetic storage case. Keep the case closed and stored safely to prevent bits from falling or getting lost, as well as to avoid accidental injury from exposed bits.
4. Before each use, inspect the screwdriver and its bits for any signs of damage or wear. If any bit is damaged, replace it immediately to avoid incomplete or unsafe work.
5. Always store the screwdriver and its bits out of reach of children. The sharp bits can pose a risk of injury if handled improperly.
6. Ensure you are working in a well-lit environment to increase visibility and accuracy while using the screwdriver. This reduces the risk of mistakes and injury.
7. Consider wearing safety glasses and gloves when working with tools, especially when performing tasks that involve high torque or when working in tight spaces. This will protect your eyes and hands from potential injuries.
8. Always use the appropriate bit for the task at hand. Using the wrong bit can cause slippage or damage to the screw, resulting in frustration or injury.
9. Always ensure that the object you are working on is stable before using the screwdriver. A stable work surface will prevent accidents caused by slipping or sudden movements.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
