## Product Overview

The Green Lion Spring Mist Air Humidifier is designed to provide a comfortable and efficient environment by offering a 350 ML/H mist output. With a 3.7L water tank capacity and a range of 6-level humidification, it delivers customizable air moisture control. The humidifier features a top-fill design for easy water refills, wide coverage for optimal diffusion, and a low-water indicator to alert you when it's time to refill. Its quiet operation ensures minimal disruption, while the anti-slip base keeps the unit steady. The built-in hidden aroma diffuser allows you to enhance your space with your favorite scents, and the remote control adds convenience for easy operation. The unit also includes a timer with settings for 4, 2, 1, or 8 hours of use, and the LED night light feature adds a soft glow to your room. Whether you're using it for relaxation, wellness, or improving air quality, the Green Lion Spring Mist Air Humidifier offers a versatile solution for your home or office.

## Specifications

Material	PP + Ultrasonic Plate
Rated Power	30W
Rated Voltage	110-220V
Rated Frequency	50/60Hz
Water Tank	3.7 L

Mist Output	350 ml/h
Area Coverage	30m <sup>2</sup>
Speed Settings	6 Levels
Timer Options	1H-2H-4H-8H
Noise Level	20 dB
Power Cord	BS Plug 1.5 m
Product Weight	970 g
Product Dimensions	180*180*290 mm

## Button Functions

### 1. Switch Button ()

Press the switch button () to turn on the humidifier. The default setting is gear 3, and the display will show "03." Press again to turn off the humidifier.

### 2. Humidification Button ()

The default setting is gear 3, indicated by "03" on the display. Press the humidification button () to adjust the settings between gears 1 to 6. The display will show the corresponding gear number.

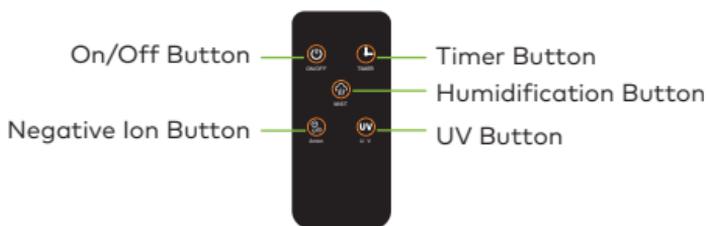

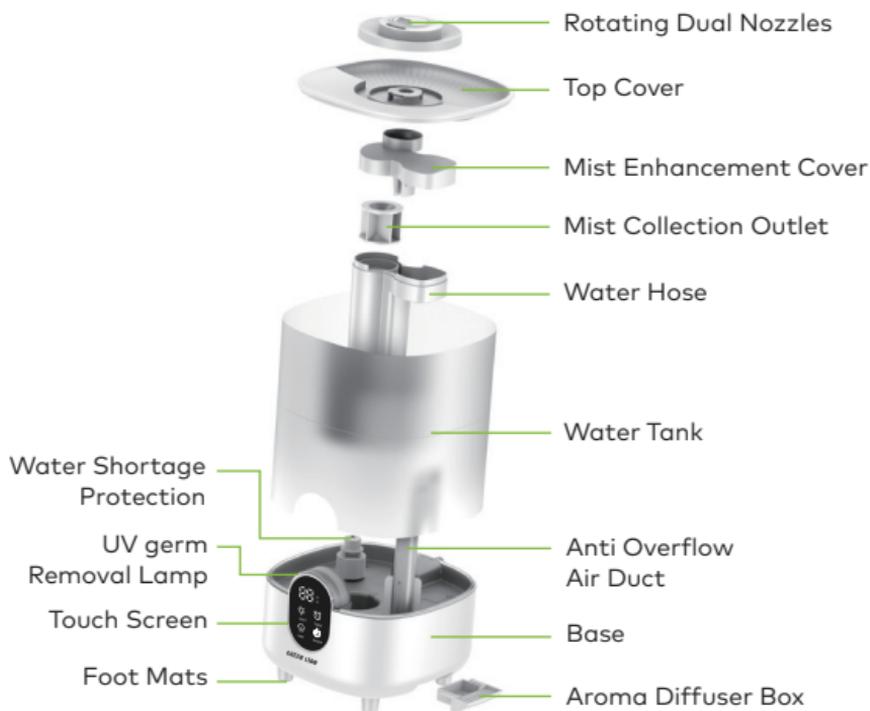

### 3. Timing Button ()

**a.** Press the timing button () to activate the 1-hour timer, with the display showing "1H."

**b.** Press again for the 2-hour timer, indicated by "2H."

- c. Press once more for the 4-hour timer, shown as "4H."
- d. Another press sets the 8-hour timer, displayed as "8H."
- e. Press again to turn off the timer, and the display will show the selected humidification gear. The timer settings will cycle through.

## Product Components

Remote Control

## Usage Instructions

1. Open the cover and add water

2. Put back the top cover and start humidifying.

3. Add water on the lid without uncovering it.

## Operation Guide

1. Place the humidifier on a horizontal table. Remove the water tank cover and fill the tank with an appropriate amount of clean tap water or pure water (ensure the water injection is unplugged). Add water until it reaches the "MAX" water level line marked on the tank.

2. Put the water tank cover back on, ensuring the surface of the machine is clean. Plug the machine's power plug into the socket, making sure the power supply voltage matches the machine's required voltage.

3. Turn on the power switch. The display will light up, indicating the machine is working. You can then adjust the fog size to your preference.

**Notice:** Do not exceed the maximum water level line. Optimal results are achieved when the water level is halfway up the tank.

## Water Shortage Instructions

When the water level in the humidifier tank is too low, the machine will automatically cut off the power supply and stop working. Simultaneously, the machine will emit a water shortage beep (tic-tic-tic) three times, and the water shortage indicator light (  ) will flash. Please turn off the power switch and unplug the power supply before refilling the tank with water.

## Cleaning and Maintenance

1. Before cleaning, ensure the power is turned off and the power supply is unplugged.
2. Pour the descaling agent into the cradle, add warm water at approximately 60°C to dissolve all the descaling agent, and let it soak for 5-10 minutes.
3. Brush the surface of the atomizer with a cleaning brush until the scale is removed.
4. Clean the cradle at the same time, rinsing both the cradle's surface and the atomizer with clean water.
5. The water tank, water trough, and atomizer should be cleaned every week, and the power plug must be unplugged before cleaning.
6. For external cleaning of the humidifier, use a clean, soft, damp cloth (below 40°C) to wipe down the external surfaces.
7. Avoid using hard objects while cleaning to prevent damage to parts.
8. Do not use chemical detergents for cleaning.
9. Replace the water tank regularly to keep the humidifier's internal parts clean.
10. When not in use for an extended period, ensure the inside of the humidifier is kept dry.

11. This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or a lack of experience and knowledge, unless they have been supervised or instructed by a responsible person.
12. Children should be supervised to prevent playing with the appliance.
13. Unplug the appliance during filling and cleaning.
14. If the supply cord is damaged, it must be replaced by the manufacturer or an authorized service provider to avoid hazards.

## Safety Precautions

1. Always turn off the humidifier when it's not in use and unplug the power supply to prevent electrical hazards.
2. Place the humidifier on a flat, stable surface to avoid tipping or leakage. Ensure that the device is not positioned near heat sources or in direct sunlight.
3. Do not exceed the maximum water level indicated in the tank to avoid overflows. Ensure the water tank is properly inserted before turning on the device.
4. Ensure the humidifier is unplugged before refilling the water tank to avoid electrical hazards from water contact.
5. Always use clean, purified water to avoid clogging or damaging the internal components of the humidifier.
6. Keep the device out of the reach of children and supervise any use or interaction with the humidifier to prevent accidents.
7. Always connect the humidifier to a properly grounded socket and ensure the power cord is in good condition. Replace the cord immediately if damaged.
8. Regularly clean and maintain the humidifier as per the instructions to ensure optimal performance and to avoid the buildup of harmful substances or bacteria.

9. Always unplug the humidifier before performing any cleaning or maintenance to ensure your safety.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
